

Product Data Sheet

J-Poly 430 CP

AA / AMPS Copolymer

Description :

J-Poly 430 CP is a multifunctional sulfonated copolymer with excellent Phosphate and Phosphonate stabilization. It is also used to stabilize Zinc. It is a good Iron and Suspended Solids dispersant.

Properties :

Total Solids %	40 %
Specific gravity (77 F)	1.27
pH	6.5
Solubility in water	Complete
